

# Data Sheet

## F/PLUG

- F-Type Satellite Plug
- To be used with RG6 Coaxial Cable will ensure robust video signal for your CATV installations
- RG6/U is the most common type of cable found in CATV cable installations and is used to route and distribute cable TV signals throughout homes and buildings. It allows for the transmission of a higher bandwidth range of signals, making RG-6 suitable for broadband digital CATV, HD video, or satellite TV applications
